SIMPLI system

In-depth support for innovation and exploitation in Smart Systems Integration

What's different in your product?

Turn your smartness inside out

Product Name

SiMPLI system

Product description

The SiMPLI system is a product family for lab bio testing. It consists of a connected, active insert system for standard multi-wells: an insert integrating a micro-manufactured SiN micro/nano tech membrane and electrodes; a SiMPLI-Connect connects the SiMPLI inserts to a CoMPLI system for TEER type measurements while in an incubator: 'Incubator-on-Line'. The SiMPLI system represents an enabling technology and micro/nano tech based, and micro-fabricated family of devices.
